October 2022

Live link: <https://the-answer.netlify.app/>

- Designed a website which contains different types of calculators to be used for different types of operations.
- Engineered the web app to be responsive and work well with any kind of device be it desktop/mobile .
- Enabled the calculations and animations on the site using vanilla JavaScript.

Experience

Hoop Telecoms Limited

Lagos, Nigeria

Technical support and service delivery F.S.E (Internship)

March 2022 - August 2022

- Worked with the technical support team as first responders to customer complaints. I was responsible for receiving customer complaints and resolving them using the computational tools and command prompt commands given to us in order to ensure stable and optimized usage of the internet by our customers.
- I also was also tasked with the responsibility of deploying with other fellow engineers to install and bring up new internet links all over lagos, using both the Radio medium and the Fiber medium as modes of passing bandwidth.

Voluntary Service

Good Drinks Products
Product distributor

Ogba, Nigeria
March 2015 – September 2020

- Performed weekly distribution of the product and conducted first level production and sales management.

Lagos, Nigeria

Overflowing Grace Parish
Technical Officer

October 2020 - December 2020

- Organized the church's acoustic set up, monitored and maintained the power generating set to ensure uninterrupted supply during services.

Professional Development

Learn JavaScript, Java, HTML, CSS, Python, Codecademy

December, 2021 - January, 2022

- Practiced various implementations of programming languages, core syntaxes and development techniques.

Google Cloud Fundamentals: Core Infrastructure, Google

August, 2022

- Learnt the fundamentals of the cloud computing platform. I also learnt the categories, uses, flaws, advantages, disadvantages and service delivery methods of the cloud platform with use cases.

Introduction to DevOps IBM

September, 2022

- Learnt the true meaning of DevOps and what it entails. I also learnt the basic requirements needed to be able to run DevOps and its importance in modern day organizations.

Excel Skills for Business: Intermediate II, Macquarie University, Sydney, Australia

July, 2022
